

DongGuan MeiChao Automation. Co., Ltd

Two head shuttle pad printing machine

1. Specification

Model No.: MC-4*6-2S

Printing area: 70*120mm

Printing speed: 1400pcs/h

Power: 220V 50-60mhz/30w

Size: 72*46*138cm

Weight: 90KG

2. Application

Two-color shuttle pad printing machine, two-color overprinting, mechanical positioning, accurate color, there are three specifications to choose from, to meet the needs of different printing areas, oil tray structure, simple operation, convenient adjustment machine, favored by users in various industries, widely used in plastics, hardware, electronics, toys, gifts and other industry products surface LOGO, character, pattern printing.

3. Technology Parameter

Standard steel plate size: 100*150mm

Down stroke of rubber head: 75mm

Front and rear travel of the rubber head: 160mm

Adjustable Angle of glue head: 360°

Adjustable Angle of work table: $\pm 5^\circ$

Maximum height of workpiece: 200mm

Plastic head printing pressure: 98kgf/cm

The original configuration of the machine: P2 can not be raised /S2 can be raised

4. Picture display
