

Six colors automatic shuttle pad printing machine

1. Application

Straight shuttle color pad printer, Production with advanced rodless cylinder and pneumatic latch device, simplex slide left and right to achieve multiple colors of products, mechanical positioning, accurate color, Suitable for plastic, electronics, hardware, gift toys and other industries of the product surface pattern printing

2. Technology parameter

Model	Parameter	P6/S
	Normal standard steel size	100*150mm
	Maximum printing area	70*120mm
	Glue head up and down distance	75mm
	Glue head front and back distance	200mm
	Glue head adjusted angle	360°
	Work table adjusted angle	±5°
	Maximum height of the plate	120mm
	Printing speed	400pcs/h
	Power source	220V 50-60mhz/30w
	Size	105*78*150cm
	Weight	250KG

3. picture display

remark: Oil cup can be adjusted at an additional cost.
